

## Postdoctoral fellow in metabolomics

**Supervisor:** Professor Janusz Pawliszyn (Department of chemistry)

**Description:** A postdoctoral scientist post is available to participate in metabolomics related studies at University of Waterloo. Candidates with strong biochemistry background and demonstrated experience in metabolomics data interpretation are encouraged to apply. Selection criteria include the following aspects:

- PhD degree in biochemistry or analytical chemistry.
- LC-MS-based method development and high resolution mass spectrometry experience.
- Skills in bioinformatics, statistical analysis, metabolomics data interpretation.
- Excellent communication skills (writing and speaking).
- Strong publication record in metabolomics is highly valued.
- Teamwork skills and ability to train/mentor graduate students.

Interested candidates should forward their CV to Prof. Janusz Pawliszyn ([janusz@uwaterloo.ca](mailto:janusz@uwaterloo.ca)). At least two recommendation references are required.
