Swedish National **PI-meeting** in **Biochemistry, Biophysics** and **Molecular Biology**

Organized by

The National Committee of Molecular Biosciences of the Swedish Royal
Academy of Sciences

and

The Swedish Society of Biochemistry, Biophysics and Molecular Biology

Meet your peers, network, learn, plan and enjoy!

Unique opportunities are provided at this Swedish National PI-meeting in Molecular Biosciences!

With this **2-day meeting** loaded with research presentations and symposia and only being open for **PI's that head research groups in Sweden** within the fields of **molecular biosciences**, no other meeting can provide the same high-level possibilities for networking, opening your scientific horizons and provide new possibilities for collaborations and funding initiatives.

Registration and participation details

The meeting is held in Stockholm from the morning of Nov 28 until the evening of Nov 29, with possibility of check-in on the evening before the start of the meeting and check-out on the day after the meeting. During the first week of November a list of all participants and further practical information will be sent to all registered attendees.

All submitted abstracts will be collated into an abstract book that will be distributed to all participants. Selection of talks will be made at the discretion of the organizing committee and not all submitted abstracts may be selected for talks, although attempt will be made to have all participating PI's being able to present themselves and their fields of study.
