

Dear colleagues,

The Federation calls for nominations for the **EFCE Lifetime Achievement Award** which is planned to be presented at the 14th European Congress of Chemical Engineering (ECCE14) in Berlin, Germany, in September 2023.

The Lifetime Achievement Award (LAA) of the European Federation of Chemical Engineering (EFCE) is given to an individual in recognition of her/his sustained and outstanding contribution to the progress of Chemical Engineering in general and on specific topics covered by the EFCE Working Parties (WPs) and Sections in particular, over a period of at least 20 years. The Award acknowledges the candidates' substantial dedication to raising the profile of the field of Chemical Engineering and the EFCE through research and teaching, organisation of conferences and workshops, effort towards the auspicious prospect of the community, and commitment to the WPs and/or Sections of the EFCE.

The previous laureates of the Lifetime Achievement Award are Prof. Jiri Klemes (2015) and Prof. Luis Puigjaner (2017).

**As a representative of an EFCE Member Society, Executive Board member or Working Party/Section Chair you are kindly invited to propose a candidate for the Award.** Please find attached the rules for the Lifetime Achievement Award (LAA) for your information.

Please send your nomination, including a short CV of the candidate (max. 5 pages) and a description of the reasons for his/her nomination, to this EFCE General Secretariat (e-mail: [ines.honndorf@dechema.de](mailto:ines.honndorf@dechema.de)) by **Wednesday, 1 March 2023**.

Thank you very much.

We look forward to receiving your nomination.

Yours sincerely,

European Federation of Chemical Engineering  
General Secretariat Frankfurt

Dr. Andreas Foerster

Ines Honndorf
