

National Seminar Series in Organic Chemistry

Friday Dec 1 at 12:30-13:00

Electroreductive C-S and C-O Bond Cleavage

Assoc. Prof. Helena Lundberg
KTH Royal Institute of Technology

Venue: <https://chalmers.zoom.us/j/65857382549>

Teachers, researchers, postdocs, students at all levels, members of Kemisamfundet and all others with an interest in the research conducted at Swedish Universities focused on organic chemistry, you are all cordially invited to this digital short seminar of a series of monthly seminars. This seminar series will continue also in 2024.

This digital venue for exchange aims to strengthen opportunities for research exchange between the Swedish universities. and and act in an orienting capacity for students, postdocs and others. This seminar series features a short talk, generally the first Friday every month throughout the year, initially involving PIs with the intent to change focus to contributions from postdocs, as well as speakers from other Nordic countries as well as from industry.

Hope to see you all in Zoom.

Svenska Kemisamfundet är en ideell förening öppen för alla kemiintresserade. Vi har som mål att främja utvecklingen av kemin och dess tillämpningar. Bli medlem på kemisamfundet.se
